Recipe Shortcut Skill Report

Summary: Recipe Shortcut turns a photo of household ingredients into one practical, beginner-friendly recipe while avoiding unsupported guesses.

Skill Information

- Skill name: Recipe Shortcut
- Purpose: Identify visible ingredients, clarify uncertain foods, and create a recipe with amounts, equipment, numbered steps, safety guidance, storage information, and assumptions.

Prompts

- Prompt used to create the Skill: "Create and save a reusable Skill named Recipe Shortcut and format it exactly like the prompt below, but have it so when you take a photo of ingredients you have in your household it creates an easy-to-follow recipe."
- Prompt used to call the Skill: "Here is my photo of ingredients; use the Skill I made."
- Clarification supplied: "Ground lamb and cilantro."

Task Tested

- Identify ingredients in a household photo and create one easy recipe from them.
- Clearly identified: yellow onions and walnuts.
- Confirmed after the Skill asked: ground lamb and cilantro.

Final Result

- Recipe: Lamb Walnut and Cilantro Skillet
- Time and yield: 30 minutes; 4 servings
- Ingredients: 1 lb ground lamb, 1 large diced onion, 1/2 cup chopped walnuts, 1/2 cup chopped cilantro, 1 tbsp oil, 3/4 tsp salt, 1/2 tsp pepper, and up to 2 tbsp water.
- Equipment: Large skillet, knife, cutting board, and spoon or spatula.
- Method:
  - Toast the walnuts for 2 to 3 minutes and set aside.
  - Cook the onion until soft and lightly golden.
  - Add the lamb, salt, and pepper; break it into small pieces.
  - Cook until no pink remains and the lamb reaches 160 F or 71 C.
  - Stir in the walnuts, turn off the heat, and add the cilantro.
- Storage: Refrigerate within two hours, eat within 3 to 4 days, and reheat until steaming.
- Assumptions: Basic oil, salt, pepper, and water are available; no one eating the dish has a walnut allergy.

Reflection

- The result met my expectations because it used all four confirmed ingredients and produced a clear recipe.
- What worked: The Skill asked for clarification instead of guessing about the meat and herb.
- What changed: I replaced the first four-step draft with a three-step version and added food-safety, storage, pantry-assumption, substitution, and clarification rules.
